HTML, CSS and Java Script

The aim of this project is to make use of HTML, CSS and Java Script. To do that we going to make a simple todo list. We utilized Angular 5 to perform this task.

How to

- Open a terminal
- Deflate the zipped file
- Enter where the code was deflated
- Make sure to have all installed dependencies

```
npm install
```

- Start the server with

```
ng start
```

- Open your preferred browser
- Open <http://localhost:3000>
